GET LUCKY GOLF × ERNIE ELS

Commercial Summary — the path to the valuation

The business. Get Lucky Golf is an insurance-backed hole-in-one challenge platform. Golfers subscribe for **$10 a month** to play for a **$10,000** prize on any verified ace, with payouts underwritten by Santam. Proven and revenue-generating in South Africa; the global category is open.

The trajectory

	2026	2029 — 3-yr plan	2032 — exit vision
Company valuation	R40m	R96.8m	R500m
Subscribers/ Entries	~2,100	~9,700	~22,900
Total annual revenue	R7.7m	R35.3m	R83.0m
Ernie's 5% stake value	**R2.0m**	**R4.84m**	**R25.0m**

Milestones from the 2025 raise and three-year plan. Revenue blends subscriptions and sponsorship. Full driver-based model available.

How we get there

- **Recurring revenue.** A subscriber base growing from a proven SA core, compounding monthly as international markets open.
- **Insured economics.** Prize risk is underwritten by Santam, globally.
- **Sponsorship layer.** On-course and headline sponsorship revenue grows alongside the subscriber base, lifting total revenue well above subscriptions alone.
- **Strategic exit.** An engaged, high-intent golfer database is the core asset — valued at a 6× revenue multiple at exit, mid-band for comparable engaged-community businesses and conservative for a category leader with strategic optionality.

What Ernie's 5% rides

On a zero-cash, zero-time founding stake, the 5% moves from **R2.0m today to R25.0m at the exit vision — a 12.5×** on entry value over the plan horizon. Non-dilutive, fully aligned with the company's own milestones.

Illustrative trajectory based on stated milestones and current operating assumptions — not a guarantee of return. Get Lucky Golf Club (Pty) Ltd · johannes@getluckygolfclub.com
